Experiment 5(b): Job Application Command Center — Page Elements Use Case

Aim

To design and build a centralized Command Center Page in Zoho Creator for the Job Application Management application, using eleven Page Builder elements to provide a unified workspace for managing candidate applications, monitoring recruitment progress, reviewing candidate details, and supporting interview activities.

Page Elements Used Overview

Page Element	Element Name	Purpose	Placement on Page
Panel	Command_Center_Main_Panel	Groups all dashboard elements into one organized workspace.	Main page container.
Board	Application_Status_Board	Displays candidate applications according to their recruitment status.	Central section of the page.
Chart	Department_Applications_Chart_Widget	Visualizes application counts across departments.	Upper section of the page.
Gauge	Quarterly_Hiring_Target_Gauge	Displays recruitment progress using application or hiring target data.	Top section of the page.
Search	Candidate_Search_Bar	Helps recruiters find candidates by name, email, or application ID.	Top of the page.
Form	Quick_Application_Entry_Form	Allows HR staff to enter new candidate application details.	Side section of the page.
Report	All_Job_Applications	Displays detailed candidate application records.	Below the dashboard elements.
Snippets	Interview_Evaluation_Criteria_Snippet	Provides interview guidelines and evaluation criteria.	Reference section of the page.
Button	Send_Interview_Reminder_Button	Provides an action for sending interview reminder emails.	Near the application status board.
Widgets	Recruitment_Overview_Widgets	Displays recruitment statistics and interview-related information.	Bottom section of the page.

Viewer	Resume_And_VideoResume_Viewer	Allows recruiters to view candidate resumes and video resumes.	Candidate review section.

Page Layout and Section Breakdown

1. Section 1 — Overview Dashboard

- Displays the Quarterly_Hiring_Target_Gauge to monitor recruitment progress.
- Shows the Department_Applications_Chart_Widget to compare applications across departments.
- Includes the Candidate_Search_Bar to find candidate records quickly.

2. Section 2 — Recruitment Processing Workspace

- Uses the Application_Status_Board to organize applications into Applied, Screening, Interview, Offer, and Rejected stages.
- Includes the Send_Interview_Reminder_Button for interview-related communication.
- Helps HR staff monitor candidate progress through the recruitment process.

3. Section 3 — Detailed Application Records

- Displays the All_Job_Applications report.
- Allows HR administrators to review candidate details, contact information, departments, and employment types.
- Supports filtering and exporting records where available.

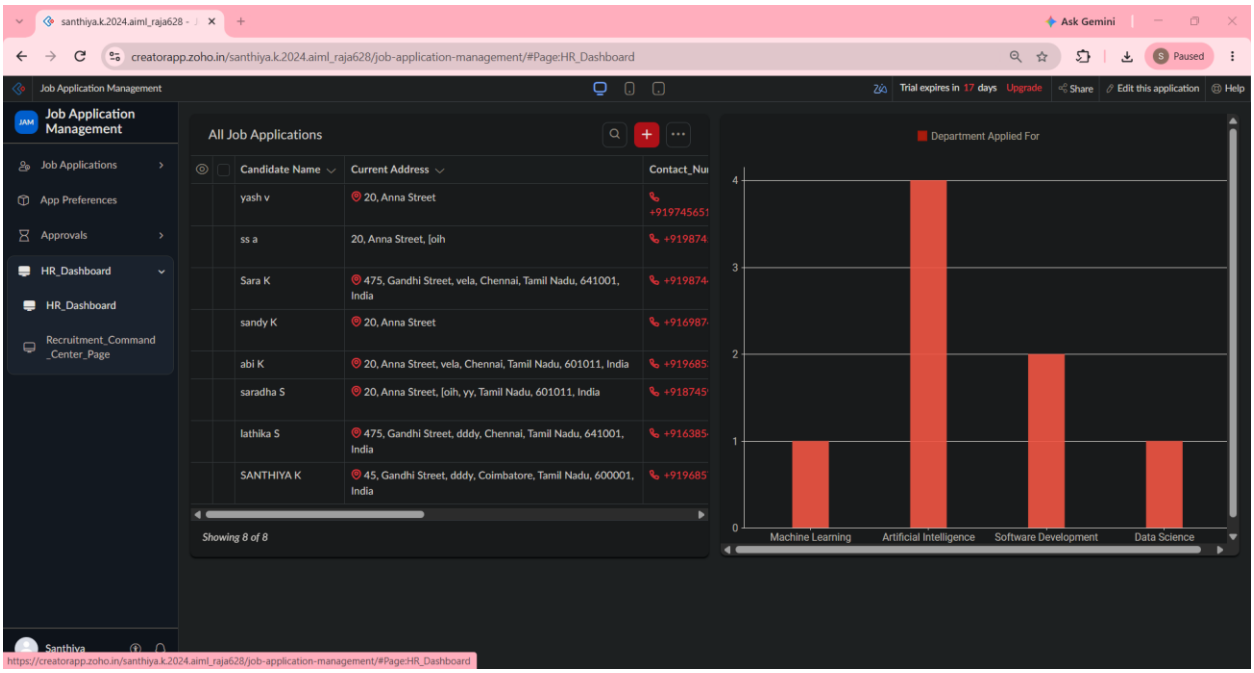

4. Section 4 — Candidate Review and Quick Actions

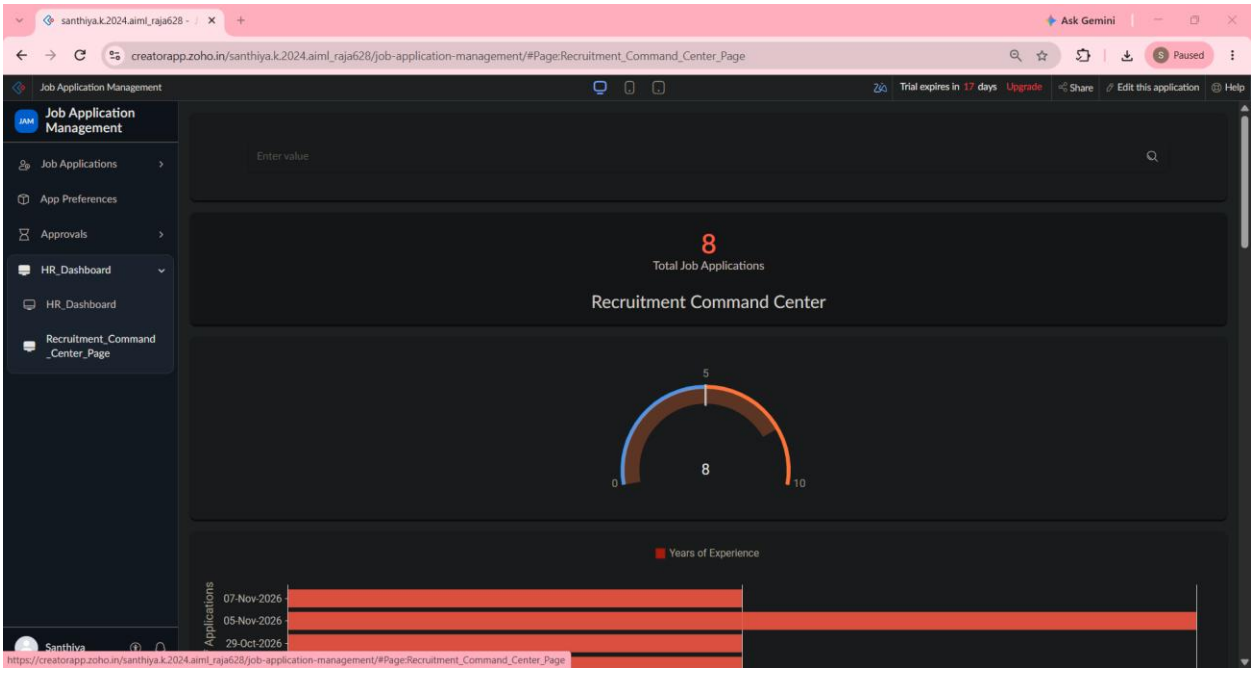

- Displays the Interview_Evaluation_Criteria_Snippet for interview reference.
- Includes the Resume_And_VideoResume_Viewer to review candidate documents.
- Provides the Quick_Application_Entry_Form for adding new candidate applications.

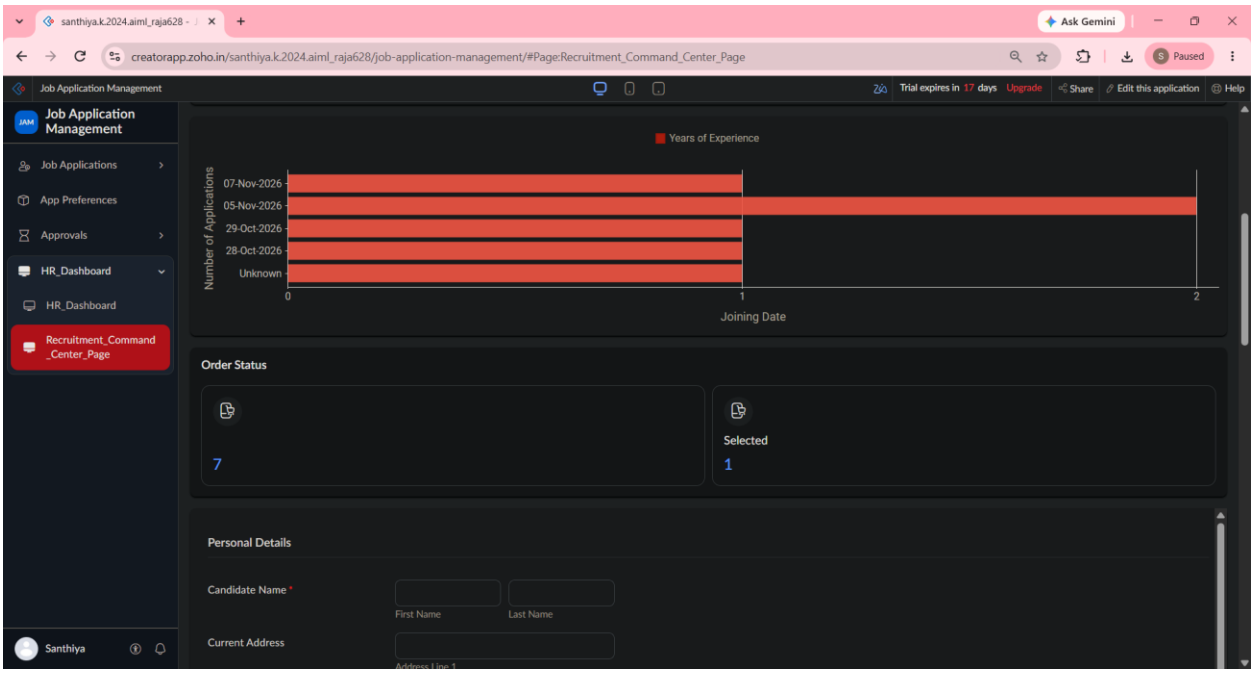

5. Section 5 — Recruitment Operations

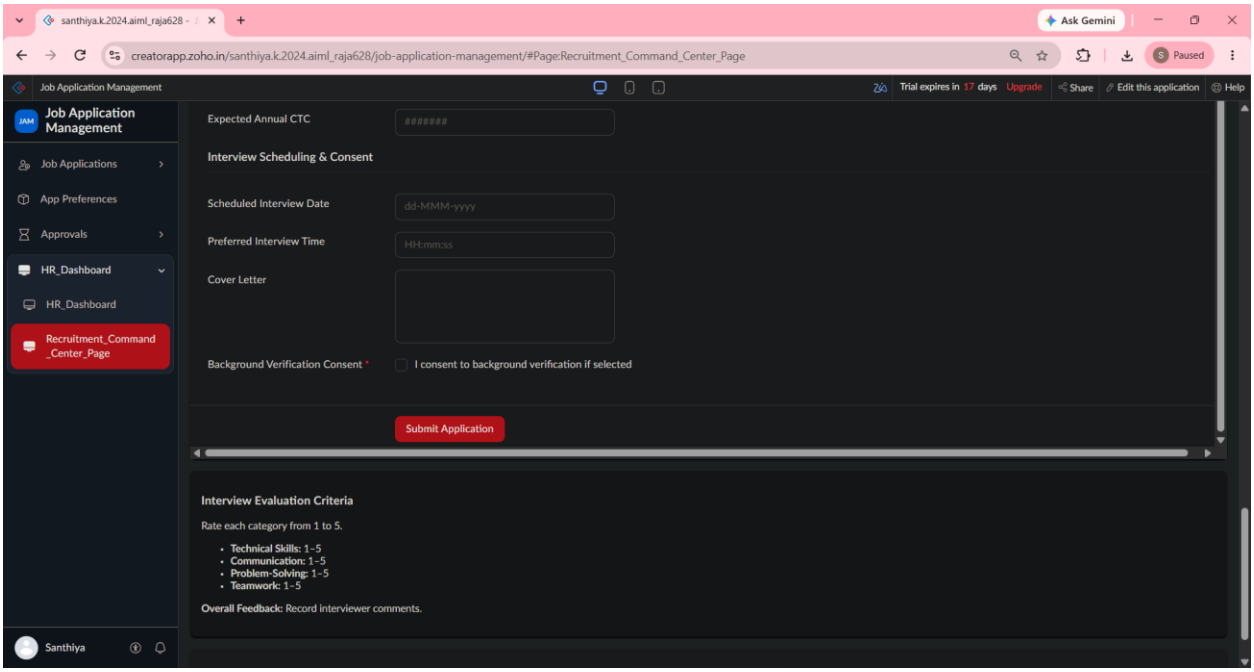

- Displays the Recruitment_Overview_Widgets.
- Provides an overview of application counts, interview activities, and other recruitment information when configured.
- Helps HR administrators and hiring managers monitor recruitment activities efficiently.

Result

Thus, the Job Application Command Center Page was designed and configured in Zoho Creator for the Job Application Management application using Page Builder elements. The page provides a centralized workspace for candidate tracking, application management, recruitment reporting, and interview-related activities.
