Advanced Data Modelling and Form Design

Aim

To extend the Bank Loan Application in Zoho Creator by implementing advanced field types and features such as lookup fields, image and file uploads, numeric validation, sub forms, URL fields, video/file uploads, fee and accommodation details, rich text content, and digital signatures.

Theory

Advanced data modelling in Zoho Creator involves using specialized field types and advanced form components to collect, manage, and validate detailed participant information.

In this experiment, the basic Bank Loan Application is extended with advanced sections. These sections demonstrate the use of lookup fields, image upload, file upload, decimal/number fields, sub forms, URL fields, media upload, fee-related fields, rich text fields, and digital signature fields.

The advanced form contains the following sections:

- **Section E — Academic & Referral Verification**
- **Section F — Employment History & Media Details**
- **Section G — Compensation & Relocation**
- **Section H — Declaration & System-Generated Values**

> Section E — Academic & Referral Verification

> ・ Referral Employee Lookup (Lookup field, auto-fills from master Employees table)

> ・ Candidate Photo (Image field)

> ・ Resume Upload (File Upload field)

> ・ Academic CGPA (Decimal field)

> Section F — Employment History & Media Details

> ・ Previous Employment History (SubForm field, repeating rows)

> ・ Portfolio/GitHub URL (URL field)

> ・ Video Resume (Video field, optional)

> ・ Self Introduction Audio (Audio field, optional)

> Section G — Compensation & Relocation

> ・ Willing to Relocate (Decision Box)

> ・ Current Annual CTC (Currency field)

> Expected Salary Hike Percent (Percent field)

> • Expected Annual CTC (Formula field, read-only, auto-computed)

> Section H — Declaration & System-Generated Values

> • Company Culture Display (Rich Text field, read-only reference block)

> • Candidate Digital Signature (Signature field)

> • Application Submitted On (Date-Time field, auto-captured)

> • Application ID (Auto Number field, system-generated)

> • Candidate Tracking QR Code (QR/Barcode field, system-generated from Application ID)

Procedure:

> Open the Job Application Form created for the Job Application Form.

> Add **Section E – Identity & Verification**.

> Add the customer Name Lookup field.

> Add the Profile Photo image upload field.

> Add the ID Proof Upload file field.

> Add the loan number in numeric field.

> Create **Section F – Team & Media Details**.

> Add a Sub Form for tapplicant member details.

> Configure Member Name, Member Email, and Member Role inside the Sub Form.

> Add the loan appilicant URL field.

> Add the loan Intro Video upload field.

> Create **Section G – Fee & Accommodation**.

> Add the Requires Accommodation checkbox.

> Add the loan Registration Fee Paid field.

> Add the Early Bird Discount Percent field.

> Create **Section H – Declaration & System Generated Values**.

> Add the loan Guidelines Display rich text field.

> Add the loan applicant Digital Signature field.

> Configure the required advanced field properties and validations.

> Save and preview the completed form.

> Enter sample data into the advanced fields.

> Add sample applicant members through the Sub Form.

> Upload the required image/file information.

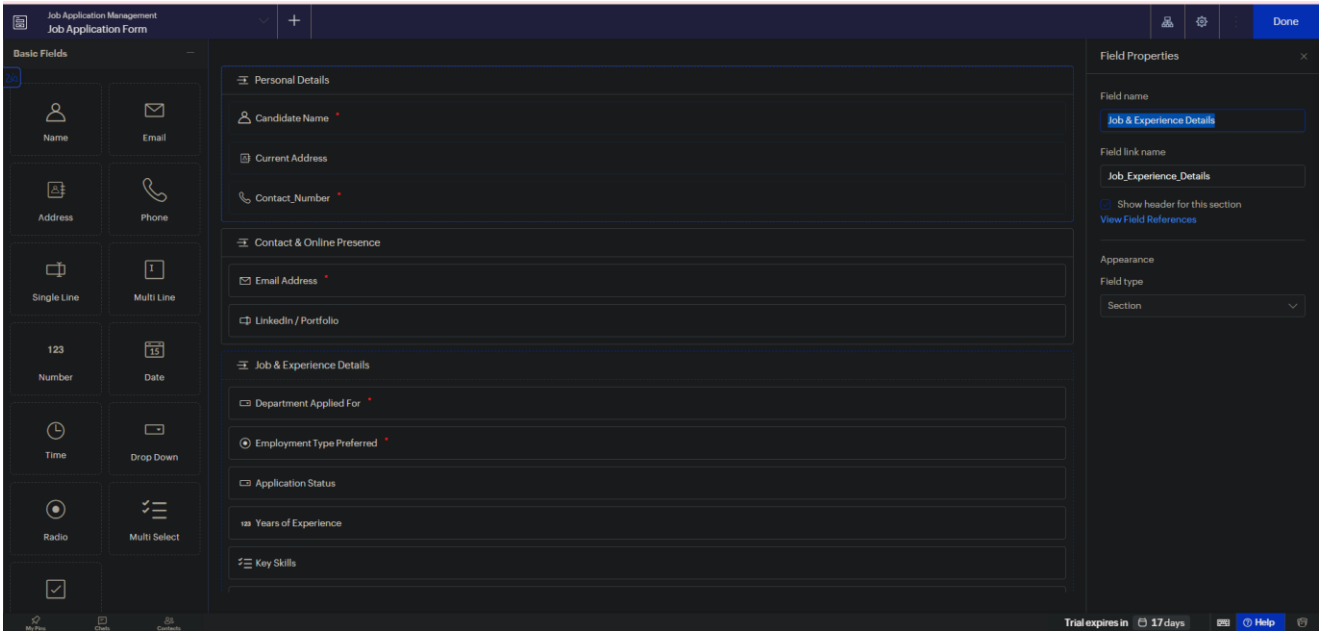

> Provide the required URL, fee, accommodation, declaration, and signature information.

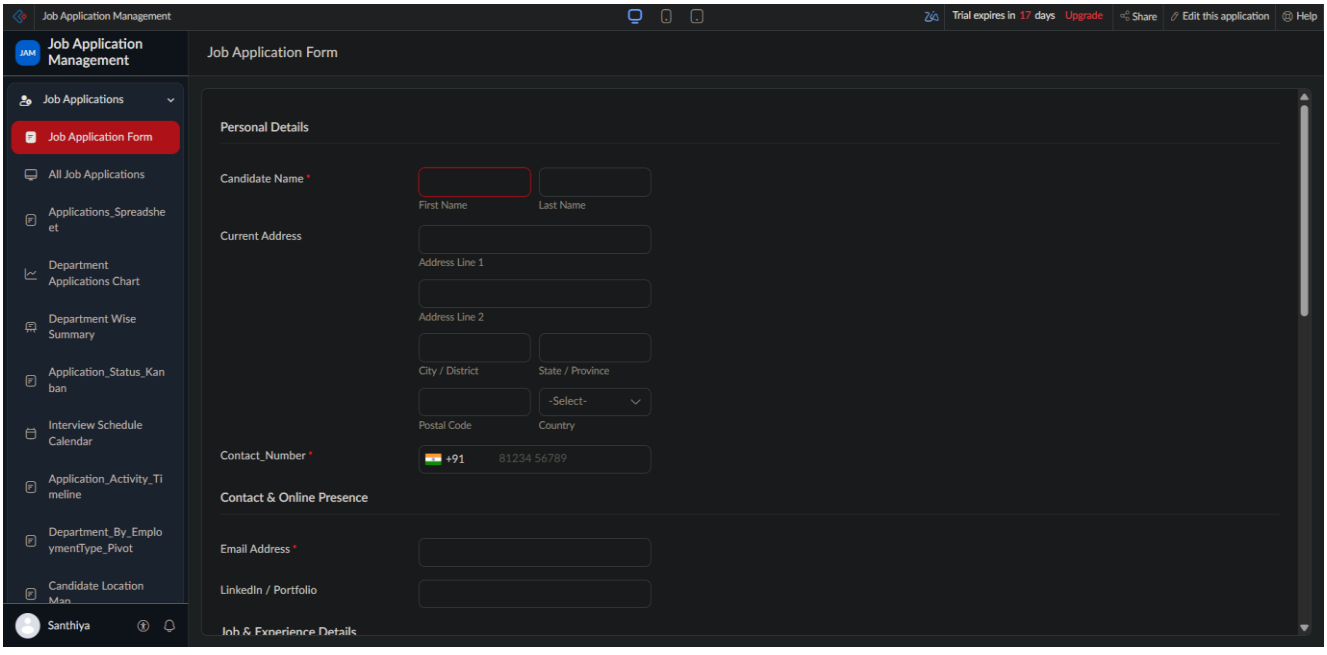

> Submit the completed form.

> Verify the submitted information in the Job Application Form.

Result

The **Job Application Form** was successfully created in **Zoho Creator** with a structured data model, appropriate validations, and organized sections. Participant records were successfully submitted and displayed in the **Job Application Form Report**, enabling efficient participant verification and Job Application.
